USEFUL INFORMATION!

ACCEPTANCE OF THE SAMPLES IN THE CONTEST

VINARIUM International Wine Contest 2024 is open to all categories and types of wine, as defined in the "International Code of Oenological Practices", which were produced in compliance with the legislation of the country of origin. Other special wines or grape-based products, must or wine, as well as spirituous beverages of vitivinicultural origin, will be admitted in the Contest.

Each wine sample or vitivinicultural product sample submitted to the Contest will consist of

- 4 bottles of 0.75 liters each, 0.5 liter or 0.375 liters each
- 3 bottles of 1.5 liters or 2 liters each.

All such samples need to be for sale and originate from a homogenous lot which is at the organizer's discretion, of 1.000 liters minimum. In certain cases, when the production of a certain wine is extremely limited (wines of botrytis grapes, ice wines, wine collection, etc.), a limited volume, but no less than 100 liters, can be permitted on grounds of low production.
